

AZO Anwendungszentrum GmbH Oberpfaffenhofen is a specialist in establishing & maintaining international innovation networks in the field of commercial space applications. AZO supports the development of new products and company foundations via a worldwide partner network. Our customers include the European Space Agency (ESA), AIRBUS, DLR and the European Commission (EC). From our headquarters in Oberpfaffenhofen, we manage one of the leading incubators in Europe, the ESA BIC Bavaria and Northern Germany.

To strengthen our project teams in Oberpfaffenhofen we are looking for a

EU-Project Manager Horizon2020 (m/f/d).

Responsibilities:

Project management within research framework programmes such as Horizon2020:

- Project and partner coordination at international level as consortium partner or consortium leader
- Project planning and implementation of individual project objectives with various partners
- Project communication and strategic positioning (newsletter, website, mailings, brochures, Social Media etc.)
- Responsibility for the achievement of project goals: Quality, costs, deadlines and budget
- Presentation of work results to different target groups and project-relevant documentation (project plans, reports, PPTs, etc.)
- Event management related tasks (e.g. organisation of webinars/events/tutorials, participation)

What you should bring with you:

- Completed studies, technical and procedural understanding.
- Understanding of the EU's space programmes, ICT, and EU geospatial market
- Strong communication skills and team-oriented approach
- Experience with EU projects preferably Horizon2020 projects
- Problem-solving and analytical thinking and structured action
- Experience in marketing and sales
- Organisational skills, initiative and willingness to travel
- Very good knowledge of MS-Office, Teams and further online tools
- Very good written and spoken English
- Careful, independent, team- and client-oriented way of working

What we offer:

- Flexible & varied work in an international environment
- Highly committed & motivated team
- Entry into a fast-growing company with exciting development opportunities
- Flat hierarchies and decision-making processes
- A high degree of creative freedom and autonomous action
